<b>Definition of the Firm</b>	For the purpose of compliance with the GIPS standards, the "Firm" is defined as Grantham, Mayo, Van Otterloo & Co. LLC ("GMO LLC") and each of the investment adviser affiliates: GMO Europe LLC, GMO Singapore PTE Ltd, GMO U.K. Limited, GMO Australia Limited (collectively, "GMO"). GMO's investment strategies are implemented via pooled vehicles (e.g., mutual funds, private funds, and funds domiciled outside the United States) and/or through discretionary advice provided to Separately Managed Accounts, some of which may invest in pooled vehicles.
<b>Claim of Compliance</b>	Grantham, Mayo, Van Otterloo & Co LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Grantham, Mayo, Van Otterloo & Co LLC has been independently verified for the periods 1 Jan 93 - 31 Dec 19. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. GIPS® is a registered trademark owned by CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.
<b>Policies</b>	GMO's policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. A complete list of composite descriptions is also available upon request.
<b>Fee Schedule</b>	The current fee schedule in effect for a separate account in the strategy is as follows: 0.65% on the first \$100 mm, 0.50% on the next \$100 mm, 0.45% on the next \$200 mm, 0.40% on the next \$400mm, 0.35% thereafter. Some accounts in the composite may have a performance fee that differs from the standard fee schedule. Fees for separate accounts are negotiable.
<b>Composite Description</b>	The Global Developed Equity Allocation Composite includes portfolios seeking total return greater than that of a benchmark generally represented by the MSCI World Index. The strategy is constructed to maximize the opportunity to achieve annualized excess returns of 2.5% to 3.5% (net of fees) above the MSCI World Index, over a complete market cycle. The strategy is invested in equity and equity-like investments across global markets, and may use both direct investment and derivatives to implement its investment views. The strategy typically limits its emerging markets exposure to 10% of the portfolio. Exposure levels will vary based on the asset class forecasts and current market conditions. The composite was created in May 2008.
<b>Leverage and Derivatives</b>	The strategy is not limited in its use of derivatives and the impact may be material. Both the use of derivatives and borrowing may cause a portfolio's gross investment exposure to be in excess of its net assets (i.e., leverage), which may subject a portfolio to a heightened risk of loss. During the period presented the strategy typically used futures, swaps, and rights.
<b>Dispersion Methodology</b>	The internal dispersion of annual returns is measured by the equal-weighted standard deviation of account returns represented within the composite for the full year. For periods with five or fewer accounts included in the composite for the entire year, 'N/M' is noted as the dispersion is not considered meaningful. The three-year annualized standard deviation measures the variability of the gross composite and benchmark returns over the preceding 36-month period. For periods without 36 months of composite performance history, 'N/A' is provided for both the composite and its benchmark.
<b>Calculation Methodology</b>	Performance results are presented both gross and net of investment advisory fees. The composite results are time-weighted rates of return net of commissions, transaction costs and withholding taxes on foreign income and capital gains. Returns for mutual funds included in the Composite include securities lending income, if applicable. Valuations and returns are calculated and expressed in U.S. dollars. All composite returns reflect the reinvestment of dividends and other earnings. Gross returns do not reflect the deduction of investment advisory fees or any other expenses that may be incurred in the management of this account. Effective January 1, 2014 net composite returns are calculated using a model advisory fee by applying the current highest fee to the composite's gross-of-fee returns on a monthly basis. Prior to January 1, 2014 net returns were calculated by applying the account's actual fee schedule in effect for the respective period on a monthly basis for each account in the composite. The model advisory fee is the higher of the maximum standard fee charged to separate accounts, without taking into account any applicable breakpoints, or the highest fee paid by any account in the composite. Actual fees paid may be higher or lower than model advisory fees.
<b>Other</b>	Past performance is not an indicator of future results.
<b>Comparison with Market Index</b>	The MSCI World + Index is an internally maintained benchmark computed by GMO, comprised of (i) GMO blended benchmark of Global Developed Equity Allocation Composite through 06/30/2014 and (ii) MSCI World Index (MSCI Standard Index Series, net of withholding tax) thereafter. The GMO blended benchmark of Global Developed Equity Allocation Composite is comprised of a weighted average of account benchmarks; many of the account benchmarks consist of MSCI World (MSCI Standard Index Series, net of withholding tax) or some like proxy for each market exposure they have. For each underlying account benchmark, the weighting of each market index will vary slightly. The index is internally blended by GMO and maintained on a monthly basis. MSCI data may not be reproduced or used for any other purpose. MSCI provides no warranties, has not prepared or approved this report, and has no liability hereunder.
