An investor should consider the fund's investment objectives, risks, charges, and expenses before investing. This and other important information can be found in the fund's prospectus. To obtain a prospectus, please visit www.gmo.com. Read the prospectus carefully before investing. An investment in the fund involves risk, including possible loss of principal. The GMO ETFs are distributed in the United States by Foreside Fund Services LLC. GMO and Foreside Fund Services LLC are not affiliated.

GMO SYSTEMATIC INVESTMENT GRADE CREDIT ETF

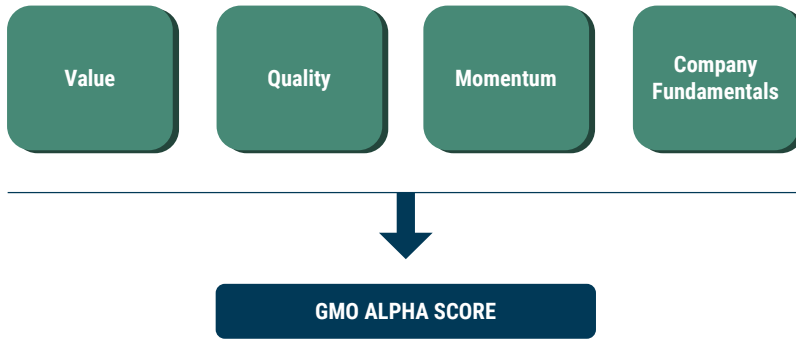

OVERVIEW

- Seeks to generate total return in excess of the Bloomberg U.S. Corporate Index
- Uses an active, systematic, factor-based approach based on value, quality, and momentum signals
- Aims for benchmark-like exposure while owning a more liquid set of corporate bonds

WHY GMO'S SYSTEMATIC APPROACH

- Differentiated, factor-based process for corporate bond selection
- Seeks to deliver consistent alpha with superior risk-adjusted returns
- Draws on GMO's valuation and quality expertise in fixed income and equity markets

HOW GMO SCORES BONDS

ABOUT GMO

Founded in 1977, GMO is a global investment manager committed to delivering superior long-term performance and advice to our clients. Offering multi-asset class, equity, fixed income, and alternative strategies, our specialized teams believe that a long-term, valuation-based approach will maximize risk-adjusted returns. We are known for our willingness to boldly challenge the status quo and our creative approach to solving investment challenges.

For more information contact us at access@gmo.com or visit www.gmo.com

An investor should carefully consider the fund's investment objectives, risks, charges and expenses before investing. This and other important information can be found in the fund's prospectus. To obtain a prospectus please visit www.gmo.com. Read the prospectus or summary prospectus carefully before investing.

Risks associated with investing in the Fund may include: (1) Credit Risk: The risk that the issuer or guarantor of a fixed income investment or the obligor of an obligation underlying an asset-backed security will be unable or unwilling to satisfy its obligation to pay principal and interest or otherwise to honor its obligations in a timely manner. (2) Market risk – Fixed Income: The market price of a fixed income investment can decline due to a number of market-related factors, including rising interest rates and widening credit spreads or decreased liquidity stemming from the market's uncertainty about the value of a fixed income investment (or class of fixed income investments). (3) Management and Operational Risk: The risk that GMO's investment techniques will fail to produce desired results, including annualized returns and annualized volatility. For a more complete discussion of these risks and others, please consult the Fund's Prospectus. The GMO ETF's are distributed in the United States by Foreside Fund Services LLC. GMO and Foreside Fund Services LLC are not affiliated.

FACTS

Ticker..... INVG

OVERVIEW

The GMO Systematic Investment Grade Credit ETF seeks to generate total return in excess of its benchmark, the Bloomberg U.S. Corporate Index, by employing active security selection.

The GMO Systematic Investment Grade Credit ETF utilizes a systematic, factor-based approach that incorporates proprietary trading signals across value, quality, and momentum. The ETF aims to deliver similar fixed income exposures to that of the benchmark, while owning a more liquid set of corporate bonds.

Performance data quoted represents past performance and is not indicative of future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance data may be lower or higher than the performance data provided herein. To obtain performance information to the most recent month-end, visit www.gmo.com. Exchange Traded Funds (ETFs) are bought and sold through exchange trading at market price (not NAV), and are not individually redeemed from the fund. Shares may trade at a premium or discount to their NAV in the secondary market. Brokerage commissions will reduce returns.

ADDITIONAL GLOSSARY OF TERMS

Coupon

The annual income received from a fixed-income security, expressed as a percentage of the par value of the security and par weighted on portfolio level.

Credit (%)

The proportion of a mutual fund's total net assets that is invested in credit instruments—such as corporate bonds, securitized debt, or other credit-related securities—expressed as a percentage. This metric indicates the fund's exposure to credit markets and associated credit risk.

Effective Duration

A measure of a portfolio's price sensitivity to interest rate changes, including expected changes in cash flows caused by embedded options. The higher the effective duration, the higher the sensitivity to interest rate changes.

Maturity

A weighted average of all the maturities of the bonds in a portfolio, computed by weighting each bond's effective maturity by the market value of the security.

Modified Duration

A measure of a portfolio's price sensitivity to changes in interest rates. It estimates the percentage change in price for a 1% (100 basis point) change in yield, assuming all other factors remain constant.

Spread

The difference between the yield on a bond or credit instrument and the yield on a benchmark security of similar maturity, typically a government bond. It reflects the additional compensation investors receive for taking on credit risk and is usually expressed in basis points.

Spread Duration

A measure of the portfolio's sensitivity to changes in credit spreads.

Weighted Average Life

A measure of average number of years until the principal of the securities is expected to be fully repaid.

Yield to Maturity

Represents the weighted average annualized return an investor would earn if the ETF's underlying bonds were held to maturity, assuming all interest payments are made as scheduled, bonds are held to maturity, coupons are reinvested at the same rate.
