Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the 16 valuation dates The Fund's estimated earnings and profits were calculated in accordance with IRC Section 312 and IRC Section 852(c), as applicable. Distributions in excess of the portion of earnings and profits allocable to the shares reduces each shareholder's tax basis in its shares to the extent of basis.

In order to report the quantitative effect on basis by the due date of this return, certain assumptions regarding the Fund's earnings and profits were made. Finalized tax reporting information concerning the Fund's earnings and profits will be reported to the shareholders following the calendar year that includes the January 9, 2012 distribution.
