## OVERVIEW

The GMO Climate Change Select Investment Fund seeks to generate high total return.

GMO's Focused Equity team believes that climate change is having a dramatic impact on the world and significant investments are – and will be – needed to head off its effects. Using a disciplined, value-oriented approach, the Fund seeks to invest in companies that are positioned to benefit from climate change mitigation or adaptation efforts. The Fund excludes companies with Environmental, Social, and Governance (ESG) controversies.
