**Depository:** State Street Custodial Services (Ireland) Limited, Dublin 2

**Production date:** 21/07/2026

### What is this product?

**Type** GMO Investments ICAV (the "ICAV") is an open-ended investment company with variable capital and is an umbrella fund with segregated liability between sub-funds.

### Investment objective and policy

The investment objective of GMO Usonian Japan Value Creation Investment Fund (the "Fund") is to seek long term capital appreciation. Under normal circumstances, the fund invests in equities (shares) of Japanese companies of any capitalisation, industry, or sector that the investment adviser believes are attractively valued, profitable and conservatively capitalised to reflect a strong asset base and a low debt level. While the Fund invests primarily in equities of Japanese issuers and issuers domiciled outside of Japan but whose securities primarily trade on Japanese exchanges, it may invest in securities of Japanese issuers on any regulated market or the securities of issuers located anywhere in the world, whose primary business market is Japan. The Investment Adviser's investment process is a bottom-up approach that seeks to identify companies with attractive valuations. The factors considered and models used by the Investment Adviser may change over time. The fund may also invest in other investment funds. The fund is actively managed and does not manage the fund to, or control the fund's risk relative to, any securities index or securities benchmark. The fund uses the TOPIX Total Return Index (the "Index") for performance comparison purposes only (the "Comparator Index"). Although the fund's securities may be components of the Comparator Index, the Investment Advisor may or may not invest in securities not included in the Comparator Index. The fund may use instruments whose value is determined by changes in the value of the underlying assets they represent (derivatives). Derivatives may be used for the reduction of risk. You may sell your shares usually on each business day (generally, a day on which banks in Dublin and London and Japan and the New York Stock Exchange are open) by sending your request to State Street Fund Services (Ireland) Limited before 2.00 pm (Irish time) on the preceding business day. For more information about the investment policy, see "Investment Objectives and Policies of the Funds" in the fund's prospectus available at [www.gmo.com](http://www.gmo.com). The Fund is a sub-fund of the ICAV. The prospectus and periodic reports are prepared in respect of the ICAV. The assets and liabilities of each sub-fund of the ICAV are segregated by law, and so the assets of one sub-fund cannot be used to discharge the liabilities of another sub-fund. Each investor of the Fund may apply to exchange shares in the Fund for shares in another sub-fund of the ICAV as set out in the prospectus.

### Intended retail investor

Investors seeking capital growth over a medium to long-term period with a moderate level of volatility.

### What are the risks and what could I get in return?

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency to the base currency of the fund, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

For other risks materially relevant to the fund which are not taken into account in the summary risk indicator, please read the prospectus available at [www.gmo.com](http://www.gmo.com).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

The figures shown include all the costs of the fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

| Recommended holding period: 5 years |                                                                                       |                          |                           |
|-------------------------------------|---------------------------------------------------------------------------------------|--------------------------|---------------------------|
| Example Investment: GBP 10,000      |                                                                                       |                          |                           |
| Scenarios                           |                                                                                       | If you exit after 1 year | If you exit after 5 years |
| Minimum                             | There is no minimum guaranteed return. You could lose some or all of your investment. |                          |                           |
| Stress                              | What you might get back after costs                                                   | GBP 3,050                | GBP 2,910                 |
|                                     | Average return each year                                                              | -69.48%                  | -21.88%                   |
| Unfavourable                        | What you might get back after costs                                                   | GBP 7,920                | GBP 9,750                 |
|                                     | Average return each year                                                              | -20.80%                  | -0.50%                    |
| Moderate                            | What you might get back after costs                                                   | GBP 10,910               | GBP 12,740                |
|                                     | Average return each year                                                              | 9.13%                    | 4.97%                     |
| Favourable                          | What you might get back after costs                                                   | GBP 14,460               | GBP 17,390                |
|                                     | Average return each year                                                              | 44.56%                   | 11.70%                    |

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund over the last 10 years. The fund performance includes performance of Class A USD and GMO Usonian Japan Value Creation Fund which are used as proxies for years where historical performance of Class C GBP is not available, and prior to that the Tokyo Stock Price Index. Markets could develop very differently in the future and the future performance of the fund may be materially different from that of the GMO Usonian Japan Value Creation Fund and the Tokyo Stock Price Index.

**Unfavourable scenario** This type of scenario occurred for an investment between October 2017 and October 2022

**Moderate scenario** This type of scenario occurred for an investment between June 2019 and June 2024

**Favourable scenario** This type of scenario occurred for an investment between May 2016 and May 2021

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

You will not face financial loss should Waystone Management Company (IE) Limited default on its obligation. In the event of insolvency of the depositary, State Street Custodial Services (Ireland) Limited, Dublin 2, the Fund's assets are protected and are not subject to a claim by the depositary's liquidator. In the event that there is any loss, there is no compensation or guarantee scheme in place which may offset, all or any of, any such loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- GBP 10,000 is invested

|                        | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs            | GBP 105                  | GBP 608                   |
| Annual cost impact (*) | 1.0%                     | 1.0% each year            |

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 6.01% before costs and 4.97% after costs.

## Composition of costs

| One-off costs upon entry or exit                            |                                                                                                                                                                                                                               | If you exit after 1 year |
|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| Entry costs                                                 | Entry Charge: 0%                                                                                                                                                                                                              | GBP 0                    |
| Exit costs                                                  | Exit Charge: 0%                                                                                                                                                                                                               | GBP 0                    |
| Ongoing costs taken each year                               |                                                                                                                                                                                                                               |                          |
| Management fees and other administrative or operating costs | 0.76% of the value of your investment per year. This is an estimate based on actual costs over the last year.                                                                                                                 | GBP 77                   |
| Transaction costs                                           | 0.32% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | GBP 32                   |
| Incidental costs taken under specific conditions            |                                                                                                                                                                                                                               |                          |
| Performance fees (and carried interest)                     | There is no performance fee for this product.                                                                                                                                                                                 | GBP 0                    |

This illustrates costs in relation to the notional value of the PRIIP.

## How long should I hold it and can I take money out early?

### Recommended minimum holding period: 5 years

This product has no required minimum holding period but is designed for long-term investments; you should be prepared to stay invested for at least 5 years. You may sell your shares without penalty on any business day.

## How can I complain?

As a shareholder in the Fund, you are entitled to make a complaint free of charge by sending it to [ComplaintsOfficer@gmo.com](mailto:ComplaintsOfficer@gmo.com) or by post to Gustav Mahlerplein 109-115 26ste, 1082 MS Amsterdam, The Netherlands. You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received. Further information on the complaints policy relating to the Fund is available from [www.gmo.com/europe/priips-complaints/](http://www.gmo.com/europe/priips-complaints/).

## Other relevant information

We are required to provide you with further documentation, such as the latest prospectus, latest annual and half-yearly reports, past performance and previous performance scenarios, each of which are available at: [www.gmo.com](http://www.gmo.com). Data on past performance is available for the previous 10 years at: [www.gmo.com/europe/priips-performance](http://www.gmo.com/europe/priips-performance). The details of the up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of the persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on [www.waystone.com/waystone-policies/](http://www.waystone.com/waystone-policies/), a paper copy will be made available free of charge upon request.
