## OVERVIEW

The GMO Horizons Investment Fund is a global portfolio reflecting the view that the world economy is transitioning to a lower carbon future, and that this process will create opportunities for investors to seek excess returns. The Fund seeks to capture these opportunities and mitigate related risks through reduced total carbon footprint (direct and indirect) and significant exposure to impactful climate solutions, while controlling for exposure to Environmental, Social, and Governance (ESG) risks.

The GMO Horizons Investment Fund is a fully systematic and diversified solution that provides:

- Materially lower total emissions than the MSCI ACWI ex-Fossil Fuels Index as measured using scope 1 emissions and GMO's proprietary Indirect Emissions model, which estimates the indirect emissions embodied in end-to-end company value chains
- High levels of exposure to companies where revenue is derived from selling green products and services
- ESG risk mitigation via better ESG characteristics than the benchmark

## RISKS

Risks associated with investing in the Fund may include: (1) Market Risk - Equities: the market price of equities may decline due to factors affecting the issuer, its industries, or the economy and equity markets generally. Declines in stock market prices generally are likely to reduce the net asset value of the Fund's shares; (2) Management and Operational Risk: the risk that GMO's investment techniques will fail to produce desired results, including annualized returns and annualized volatility; and (3) Market Disruption and Geopolitical Risk: geopolitical and other events (e.g., wars, pandemics, sanctions, terrorism) often disrupt securities markets and adversely affect the general economy or particular economies and markets. Those events, as well as other changes in non-U.S. and U.S. economic and political conditions, could exacerbate other risks or otherwise reduce the value of the Fund's investments. For a more complete discussion of these and other risks, please consult the Fund's Prospectus.

**Performance Returns:** Returns shown for periods greater than one year are on an annualized basis. To obtain performance information to the most recent month-end, visit [www.gmo.com](http://www.gmo.com). **Performance data quoted represents past performance and is not indicative of future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance data may be lower or higher than the performance data provided herein.** Net of all fees and expenses after reimbursement by the Manager, but not transaction costs, if any. If certain expenses were not reimbursed, performance would be lower. A dilution adjustment may be applied on a subscription or redemption of shares to reflect the costs of dealing in the Fund's assets. The return on investment in the Fund may increase or decrease as a result of currency fluctuations if an investor's investment is made in a currency other than that used in the past performance calculation. If the Fund holds assets in currencies other than the base currency of the Fund and/or you invest in a share class that is denominated in a different currency than the base currency of the Fund, subject to any hedging at share class or Fund level, the value of your investment may be impacted by changes in the relative prices of the relevant currencies. The use of financial derivative instruments by the Fund may result in increased gains or losses within the Fund.

**Benchmark(s):** The MSCI ACWI ex Fossil Fuels Index (MSCI Standard Index Series, net of withholding tax) is an independently maintained and widely published index based on the MSCI ACWI Index, its parent index, and includes large and mid-cap stocks across 23 Developed Markets (DM) and 24 Emerging Markets (EM) countries. The index represents the performance of the broad market while excluding companies that own oil, gas and coal reserves. MSCI data may not be reproduced or used for any other purpose. MSCI provides no warranties, has not prepared or approved this report, and has no liability hereunder.

The Fund is a sub-fund of GMO Investments ICAV, an umbrella fund with segregated liability between sub-funds, which is authorised by the Central Bank of Ireland (the "Central Bank") as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. The authorisation of the ICAV is not an endorsement or guarantee of the ICAV by the Central Bank. Neither the Central Bank nor the UK's Financial Conduct Authority has approved and or takes responsibility for the contents of this document or for the financial soundness of the Fund or for the ICAV. THE ICAV is an EEA UCITS scheme which is recognised under Part 6 of The Collective Investment Schemes (Amendment etc.) (EU Exit) Regulations 2019, as amended.

GMO UK Limited Authorised and Regulated by the Financial Conduct Authority Registered no 4658801 England. GMO Netherlands is registered with the AFM.

The Fund has not been registered under the United States Investment Company Act of 1940, as amended, nor the U.S. Securities Act of 1933, as amended. None of the shares may be offered or sold, directly or indirectly, in the U.S. or to any U.S. Person, unless the securities are registered under the Act or an exemption from the registration requirements of the Act is available. A U.S. Person is defined as (a) any individual who is a citizen or resident of the U.S. for federal income tax purposes; (b) a corporation, partnership, or other entity created or organized under the laws of or existing in the U.S.; (c) an estate or trust the income of which is subject to U.S. federal income tax regardless of whether such income is effectively connected with a U.S. trade or business.
